

# UNDERSTANDING CORDOVA'S COVID-19 HEALTH ALERT SYSTEM

---

---

1

**LEVEL 1 – OPEN / ADVISORY:** There are few to no COVID cases during this time frame. If we are seeing downward trends, we will methodically move to lift any remaining restrictions or recommended voluntary measures.

Cordova follows the State's lead after the Cordova Medical Response Team and City Council confirms transition is justified using metrics recommended by the State of Alaska. Prepare the community to use COVID mitigation strategies and implement recommendations made by the Unified Command if necessary.

---

---

2

**LEVEL 2 – WATCH: PROCEED WITH CAUTION:** There are a steady number of COVID cases during this time that are manageable but may warrant extra individual situational awareness in making every day COVID smart decisions. If the situation is stable or we are seeing a slow increase in cases, voluntary measures may be requested to flatten the curve.

Local City Emergency Declarations may be implemented. Cordova follows the State's lead after the Cordova Medical Response Team and City Council confirms transition is justified using the four metrics recommended by the State of Alaska. Prepare community to use COVID mitigation strategies and implement recommendations made by the Unified Command if necessary.

---

---

3

**LEVEL 3 - LOCAL OUTBREAK WARNING: *Local Community Outbreak Rules Triggered:*** There is a Consistent or rapid increase in cases within the community which may increase risk to its public spaces and direct lines of transportation. The City initiates measures to manage cases and mitigate the spread within the community. The Medical Response Team will recommend action using the four metrics provided by the State of Alaska. Encourage the Community to use further COVID mitigation strategies and implement recommendations made by the Unified Command if necessary.

---

---

4

**LEVEL 4 - STOP:** Uncontrollable Outbreaks, Imminent Life Danger. Hunker down order Issued, closing of all public and private spaces, not to include Critical Emergency Services.

---

---

# City of Cordova COVID-19 Local Health Advisory Plan

*Presented to Council July 15, 2020*

**This document is a working draft. The Cordova City Council, Cordova City Administration and the Cordova Medical Response Team are working together to create a plan that protects City residents and visitors from COVID-19 to the greatest extent possible while preserving the economic well-being of City businesses and residents. This Plan includes proposed rules and metrics adapted from other communities, the State of Alaska, and other Alaska government agencies as well as procedures and rules unique to Cordova. The purpose of this Draft Plan is to provide Council, the Administration, and members of the public a starting place in developing a COVID-19 health advisory plan that incorporates commentary, insight, and guidance from the Cordova community as a whole.**

## **CORDOVA'S COVID-19 LOCAL HEALTH ADVISORY PLAN**

The City of Cordova has actively monitored the COVID-19 outbreak in the State of Alaska and established a rigorous response to prevent local spread.

Cordova's Unified Command (hereafter UC) has been tasked with protecting the health and safety of the community from impacts of the COVID-19 pandemic. The UC recognizes that any and all protective measures come at a cost and the UC must ensure that any cost is a necessary one.

The City acknowledges that social distancing restrictions separate friends and loved ones in times of need. Limitations on business operations have very real economic consequences for local businesses and industries that form Cordova's cornerstones. Personal sanitation and hygiene mandates may interfere with an individual's personal autonomy and freedom of choice. For these reasons, the City is dedicated to ensuring that the adoption of any regulations or laws to protect against the spread of COVID-19 within Cordova are necessary and carefully tailored to reduce the transmission of COVID-19 in Cordova's residents and visitors.

Alaska Governor "Reopen Alaska Responsibly Plan" articulates a path towards reopening the State's economy with strong protective measures. The Governor's plan is intended to be enacted by all communities in Alaska but acknowledges that local jurisdictions may need to implement more restrictive rules based upon unique local risks and available resources.

Cordova's Covid-19 Local Health Advisory Plan (hereafter CLHAP) ensures that the City's response to COVID-19, both in the short and long term, is medically based, flexible and adaptable, and narrowly tailored. Additionally, Cordova's CLHAP is designed to be easily understood by and communicated to Cordova community members and visitors. The CLHAP ensures that to the greatest extent possible, local alerts and recommendations mirror State alerts and recommendations but that local needs are considered first and foremost at all times.

Cordova's CLHAP adopts easy to follow rules that are based upon: (1) medical and epidemiological data regarding COVID-19; and (2) the City's resources to prepare and respond to a COVID-19 outbreak.

### **THE STATE APPROACH: A 5-STEP SYSTEM TO RECOVERY**

The State Plan establishes four basic metrics that will be tracked by Alaska Department of Health and Social Services (DHSS) in determining when to move forward or "roll back." The Four Basic Metrics are as follows:

1. *Epidemiology*

Tracking disease trends and trend forecasting.

2. *Testing*

Monitoring overall testing volume and changes in the percentage of positive tests at the community, regional, and statewide levels. Ensuring fast turnaround of tests and reporting of results. The goal is to maintain COVID-19 positive tests at less than one per one-thousand.

3. *Public health capacity*

Monitoring cases and conducting necessary contact investigations for positive cases.

4. *Health care capacity*

Ensuring hospitals have adequate capacity and supplies (such as PPE and ventilators) to care for COVID-19 patients and other patients needing urgent care.

### **TAILORING THE STATE'S APPROACH TO THE CITY: CLIMBING TO RECOVERY**

In this Plan, the City adopts the State's four metrics and five-phase approach to recovery. To this end, the City's COVID-19 Rules have been revised to impose lock-step social distancing restrictions with the State while also maintaining local requirements regarding the submission of mitigation and response plans and protocols to local authorities, local business postings, and mutual aid agreements. These postings and submissions ensure that the City, its residents, and its visitors have the information needed to ensure the public's awareness and compliance with State Health Advisories.

Although the City embraces the State Plan, it also recognizes the need to provide the Unified Command the flexibility to respond when the local situation worsens but State COVID-19 metrics remain unchanged. To this end, the City CLHAP adopts the State's red, yellow, and green alerts but adds to that plan a five-level "local health alert" system, ensuring the City can "roll back" reopening efforts in the event the City's metrics fall out of line with the State. In an effort to ensure that every citizen and visitor knows exactly what local rules apply in each phase, the City has taken several steps, including adopting this local health advisory plan, revising the COVID-19 Emergency Rules to eliminate social distancing provisions more restrictive than those adopted by the State,<sup>1</sup> and adopting COVID-19 "Community Outbreak Rules." The City's COVID-19 Community Outbreak Rules will only become effective when the City Manager, in collaboration with the Unified Command, declares an Alert Phase triggering the need for the implementation of increased restrictions on the local level. These rules "rollback" to social distancing and business operation restrictions previously imposed by the State of Alaska and/or the City.

---

<sup>1</sup> The City CLHAP retains posting and filing as well as facial covering and mutual aid agreement requirements to ensure the City and the public have the tools and information necessary to monitor compliance with State mandates and best practices.

## **UPDATE 8/12/2021:**

In August 2021, DHSS switched from a three-level system to a four-level system to better align with CDC's levels. The orange level previously corresponded to at least 5 but less than 10 cases per 100,000 persons per day on average, whereas the new orange level corresponds to about 7 to about 14 cases per 100,000 per day on average. Additionally, DHSS previously calculated alert levels by averaging the number of reported cases over the past 14 days, whereas the current alert levels are based on the reported number of cases over the past 7 days. This approach makes the alert level more sensitive to recent changes in the number of reported COVID 19 Cases.

Alert levels are now calculated for all boroughs and census areas (with at least 1000 residents); previously, alert levels were presented by regions. Using boroughs and census areas provides more locally relevant information. Because some boroughs and census areas have small populations, the level may fluctuate frequently and may not reflect community transmission. However, each of the five most-populous boroughs was considered its own region, so the change to calculating alert levels by borough and census area is not a substantive change for these locations.

## **CORDOVA'S "LOCAL HEALTH ALERT" SYSTEM**

### *When and How is Cordova's "Local Health Alert" Triggered?*

The City's Health Alert System will be triggered when one or a combination of the following occurs:

#### 1. *Epidemiology*

A review of COVID-19 trends and trend forecasting suggests that there is an increase in the transmission of COVID-19 in Cordova or a substantial increase in neighboring communities within Cordova's industry markets, fisheries or transportation lines that has not triggered a change in the State's alert level.

#### 2. *Testing*

The City's testing capacity diminishes, or testing becomes unavailable at the community level or the City's physical capacity to maintain testing becomes challenging. The State's goal for testing is to maintain COVID-19 positive tests at less than one per 1,000. While Cordova's size does not lend itself to analysis under the State's goal, the City's goal is to ensure it has appropriate testing capabilities to detect COVID-19 in the City and take steps to curb its spread before the pandemic overwhelms the City's medical resources. Accordingly, the City will rely upon recommendations from the State, the City Unified Command and the Cordova Medical Response Team in assessing the testing capacity and availability and the impact of such capacity and availability on the City's response to COVID-19.

#### 3. *Public health capacity*

The City's public health capacity is significantly impacted by the commercial fishing industry and the influx of workers and visitors at certain periods. During these periods, COVID-19 positive testing may warrant temporary imposition of greater social distancing restrictions, depending upon the conditions and circumstances surrounding the positive COVID-19 results.

#### 4. *Health care capacity*

The City's ability to care for COVID-19 patients alongside other patients reaches its capacity or the City exhausts or is at risk of exhausting its PPE supplies.

This "local metric analysis" will be conducted by the Cordova Medical Response Team and reported to the Unified Command.

## **CORDOVA'S HEALTH ALERT SYSTEM**

### *Once the "Local Health Alert" is Triggered, How Does it Work?*

In the event the City Manager declares a "Local Health Alert" the following steps will be taken:

1. Post Notice on the City website and Local Radio and in at least three other City locations of the COVID-19 Alert Status.
2. Post a copy of the "Community Outbreak Rules" and the effective date and time of these rules on the City website.
3. Send the Notice electronically or via hand delivery to Council members within 24 hours of issuing the declaration. No more than five days after the City Manager declares "Alert" Status, City Council shall hold an emergency meeting and shall approve or deny the declaration of "Local Alert" status.
4. The Council meeting regarding the Cordova's CHLAP status shall include a telephonic or videoconference public hearing in which members of the public may sign-up to comment on the City's declaration of a "Local Alert Status" and/or implementation of the Community Outbreak Rules;
5. Notice of "Local Alert" status and the reasons for the deviation from the State's code level will be sent to the State of Alaska; and
6. If practicable, the City will notify all businesses registered with the City of Cordova's CHLAP status and provide a copy of the "Community Outbreak Rules."

"The Community Outbreak Rules" and the "Local Alert Levels" shall be submitted to Council for review and approved by Council before or contemporaneously with the adoption of this Local Health Advisory Plan. Unlike promulgated City COVID-19 Rules, Council may amend, revise or supplement the Community Outbreak Rules. Any Council revisions or amendments to the Community Outbreak Rules must be reviewed by the City Attorney for legality before becoming effective.

## **APPENDICES**

There are numerous documents attached to this Plan in the appendices. While some of these documents are included for informational purposes only, Appendix A, Appendix B, and Appendix C are all incorporated into this Plan. Any updates to Appendices A-C should result in an update to this Plan to reflect and incorporate those revisions.

Appendix A: Cordova's COVID-19 Health Alert System

Appendix B: City of Cordova's Temporary Emergency COVID-19 Rules

Appendix C: Cordova's Community Outbreak Rules

# UNDERSTANDING CORDOVA'S COVID-19 HEALTH ALERT SYSTEM

---

4

**LEVEL 4 - STOP:** Uncontrollable Outbreaks, Imminent Life Danger. Hunker down order Issued, closing of all public spaces, not to include Critical Emergency Services.

---

---

# Understanding Cordova's COVID-19 Health Alert System

## Level 1

### City of Cordova OPEN / ADVISORY

No restrictions - recommended voluntary measures.

- There are few to no COVID cases during this time frame.
- The City of Cordova will follow the State of Alaska's lead regarding COVID measures and protocols.
- The community should continue to practice COVID safe behaviors at their individual comfort level and be prepared to take extra voluntary measures should the local risk level advance.

## Level 2

### Local level: WATCH: PROCEED WITH CAUTION

Recommended voluntary measures may be requested.

Heightened COVID situational awareness and behavior is appropriate.

- There are a steady number of COVID cases during this time that are manageable but may warrant extra individual situational awareness in making every day COVID smart decisions.
- If the situation is stable or we are seeing a slow increase in cases, voluntary measures may be requested to flatten the curve.
- Cordova Medical Response Team and City Council confirms transition is justified using the four metrics recommended by the State of Alaska.
- Prepare the community to use extra COVID mitigation strategies and implement recommendations made by the Unified Command if necessary.

## Level 3

### Local Level OUTBREAK WARNING: Local Community Outbreak Rules Triggered

Additional recommended voluntary measures may be requested.

There is a Consistent or rapid increase in cases within the City.

- There is a Consistent or rapid increase in cases within the community which may increase risk to its public spaces and direct lines of transportation.
- The Community is encouraged to use further COVID mitigation strategies and implement recommendations made by the Unified Command.
- Recommended strategies may include but not be limited to: Maintaining small social bubbles, universal masking when in public spaces, traveling only when necessary, going into public spaces only when necessary, reducing the size of gatherings, changing the location of gatherings to online or outdoor settings.

## Level 4

### Local Level - STOP

Uncontrollable Outbreaks, Imminent Life Danger

- Hunker down order Issued, closing of all public spaces, not to include Critical Emergency Services.

# CITY OF CORDOVA TEMPORARY EMERGENCY COVID-19 RULES

## July 19, 2021

*These rules will be updated by emergency order and all emergency orders issued by the City are posted on the City website. Please be aware that some previously enacted rules have been renumbered or moved but remain in effect. If you have any questions regarding the application of these rules to you, your business or the community as a whole please email [cordovaprepared@yahoo.com](mailto:cordovaprepared@yahoo.com).*

**Rule 1. Electronic City Council Meetings.** Any regular or special meetings of the City Council may be conducted via electronic means, including audio or video conference and the Mayor may chair these meetings via electronic presence, unless the Mayor determines that a meeting must be conducted at City Hall and that doing so does not pose a risk to the public health, safety, and welfare. The City Clerk shall post telephone number(s) to call into telephonic or video conference meetings on the City of Cordova website and on the written agenda for all regularly scheduled and special meetings. Council shall ensure that reasonable accommodations are made to afford the public a right to be heard telephonically. Telephonic participation by the public is not ideal but is reasonable when weighed against the substantial risk to public health, welfare, and safety posed by group gatherings during the COVID-19 outbreak. In the event the Mayor determines an in-person meeting is necessary and does not pose a risk to public health, welfare, and safety, a safe number of members of the public shall be communicated and allowed to enter the space to make comments one at a time. The public may also submit written public comments for all telephonic or video conference Council meetings. The public written comments shall be read into the record during the public comment period at all Council meetings held electronically, except Council work sessions. If written public comments exceed three (3) minutes, the first three (3) minutes of the written comment shall be read during the meeting. Written comments must include the name of the contributor in order to be read publicly during telephonic or video conference meetings. Current time limits placed on public comments and testimony shall apply to telephonic and written public comments submitted under this rule. The City must continue to comply with meeting attendance and scheduling requirements under the Cordova Municipal Charter Section 2.7.

**Rule 2. Council Meeting Notice and Packet Materials.** The City Clerk shall provide the public and media notice that is reasonable under the circumstances for all emergency special meetings held by Council. All special meetings and agenda items shall be posted on the City website no less than six (6) hours before a special meeting. Failure to post the meeting materials shall not invalidate the actions taken by Council during an emergency meeting if Council states the reason for the failure to post adequate notice or provide materials and clearly finds that the notice and material access provided during the meeting was sufficient and reasonable in light of the emergency circumstances underlying the meeting.

**Rule 3. Meetings of Boards and Commissions.** The City Manager may cancel meetings of any board or commission if she finds that cancellation is necessary to protect public health, safety, and welfare. Any such cancellation shall automatically extend such deadlines for required actions by such board or commission as is specified in the cancellation notice. All board and commission meetings may be held electronically in the same manner prescribed for Council meetings in Rule 1.

**Rule 4. Suspension of All Non-Essential Meetings and Agenda Items.** All non-essential government meetings may be postponed until the declared state of emergency regarding COVID-19 is repealed, expires or the Cordova Health Alert Level and Recommendations from the Unified Command deem appropriate. Non-essential action items may also be postponed until the declared state of emergency regarding COVID-19 is repealed, expires or the Cordova Health Alert Level and Recommendations from the Unified Command deem appropriate, unless doing so would pose substantial financial harm on the City or another party. Any person objecting to the postponement of an action item may notify the City Manager in writing regarding his or her objection. The City Manager shall review any written objections received and shall determine if the objection warrants consideration of an action item by Council or the appropriate commission or board before the expiration or repeal of the declaration of emergency. The City Manager shall notify the Mayor of all written objections received and her determination. Upon receipt of a written objection, City Council may override the City Manager's decision to postpone an action item.

**Rule 5. Licensed or Permitted Activities.** The City Manager may suspend licenses or permits for special events or any other licenses or permits issued by the City which in the judgment of the City Manager could impact the public health or well-being of residents or visitors to the community and suspension of such licenses or permits is not prohibited by State of Alaska law or mandate.

**Rule 6. Personnel Policies.** The City Manager may adjust any personnel policies related to leave time, other benefits or terms and conditions of employment as are reasonably related to providing sufficient staffing during the term of the emergency while protecting City employees and the community from COVID-19.

**Rule 7. Bargaining Units.** The City Manager is hereby authorized to enter into such temporary agreements, including memorandum of understanding with the City's bargaining units in order to promote the provision of City services and the health and safety of the public and employees during the emergency.

**Rule 8. City Facilities.** The City Manager may close City facilities or limit hours of operation as is reasonably required to protect the health of the public and employees of the City.

**Rule 9. Local Business Protective Measures and Policies.** All businesses open to more than five (5) customers at one time at a physical site within the City shall post a "COVID-19 Protective Measures and Policies" on-site detailing the measures taken by that business to protect employees and customers from COVID-19 exposure. Businesses subject to this requirement may file a copy of their COVID-19 Protective Measures and Policies with the City's Incident Management team at [forms@cityofcordova.net](mailto:forms@cityofcordova.net) COVID-19 Protective Measures and Policies should include:

1. Notice of any limits on the number of individuals permitted on-site at a given time;
2. Identification of healthcare and sanitation measures taken to minimize the exposure of customers and employees to COVID-19; and

3. Description of a means for individuals in quarantine to obtain essential personal goods from the local business and a telephone number or website where these individuals can place an order for such goods. Businesses may prohibit entry of quarantined individuals from their premises and offer delivery or establish a pick-up location for orders of essential personal goods sold by the business, but may not ban individuals from obtaining such goods because the individual is subject to quarantine; and
4. A telephone number or email address of the individual owner, manager or his or her designee so that persons may report violations of the business's protective measures and policies.

Businesses may post a State of Alaska COVID-19 mitigation plan in place of the COVID-19 Protective Measures and Policies so long as the mitigation plan contains the information required in this rule. An example "COVID-19 Protective Measures and Policies" is available on the City website.

**Rule 10. Medical Quarantine.** Individuals under a healthcare quarantine order or an individual testing positive for COVID-19 must comply with all medical quarantine orders or requirements imposed by the State of Alaska. Individuals subject to a State of Alaska medical quarantine order must notify a healthcare provider that the individual is under medical quarantine or has tested positive for COVID-19 before making any physical contact with that healthcare provider or entering the provider's premises. Each day constitutes a separate violation under this rule punishable by a fine of up to \$500.

**Rule 11. Mutual Aid Agreements.** Individuals and businesses engaged in commercial operations, sales or services physically located within the City must enter into a Mutual Aid Agreement with the City. This rule applies to vessel owners engaged in commercial fishing operations, sport fishing charters, and sightseeing excursions. It also applies to retail stores, grocery stores, liquor stores, lodging facilities, hair salons, personal care service providers, restaurants, air charter operations, and all other commercial operations, sales or services within the City. This agreement identifies the measures taken by the City to protect the community and the protections provided by the operator to prevent the spread of COVID-19 amidst the operator's employees and customers and within the Cordova community at large. The Mutual Aid Agreement is available on the City website and should be completed and submitted to the City at [forms@cityofcordova.net](mailto:forms@cityofcordova.net)

Individuals or entities subject to this rule operating an independent commercial vessel following State of Alaska Health Advisory 4: Critical Infrastructure Appendix 2 Independent Fishing Vessels should complete the "Vessel Mutual Aid Agreement." Individuals or businesses subject to this rule but operating within the City after the effective date of this rule should submit a mutual aid agreement within 72 hours of initiating operations within the City or its waters. Individuals and businesses subject to this rule but covered by a State of Alaska approved Critical Workforce Protocol may file their protocol in place of a Mutual Aid Agreement along with the "City of Cordova Local Acknowledgment Form," which is a written statement agreeing to comply with the terms and requirements of that protocol while in the City or its waters. The City of Cordova Local Acknowledgment Form and the Model Business and Vessel Mutual Aid Agreements are available on the City website. The City Manager may accept a proposed mutual aid agreement or state protocols submitted in place of a mutual aid agreement or may

request additional protocols or procedures be implemented before executing such an agreement. No mutual aid agreement shall require either party to violate state or federal law or the Cordova Municipal Charter.

**Rule 12. Payment Deferrals.** The City Manager, upon the recommendation of the Finance Director, is hereby authorized to extend deadlines for payment related to any amounts due and owing to the City.

**Rule 13. Commercial Operations COVID-19 Document Submission.** All businesses or individuals engaged in the sale of goods or services in this City or conducting commercial operations within the City shall file with the City:

1. Any protocol, acknowledgement form or plan regarding COVID-19 submitted to the State of Alaska, the United States Coast Guard or any other agency, branch or department of the federal government;
2. Any memorandum of understanding or agreement regarding COVID-19 executed by and between the business or individual and the State of Alaska or the federal government; and
3. Any enforcement orders or notices of violation involving COVID-19 filed against the individual or business by a government or military entity, including the Department of Health and Human Services and the United States Coast Guard.

Submissions required under this rule must be received by the City no more than five (5) working days after the effective date of these rules or within 72 hours after the business or individual reasonably foresees that he, she or it will operate or engage in the sale of goods or services within the City while these rules are in effect. Submissions under this rule should be emailed to the City's Incident Management team at [forms@cityofcordova.net](mailto:forms@cityofcordova.net). A business or individual may be exempt from submitting a document under this rule if the government entity issuing or executing the document provides the City with a written statement identifying the document as confidential and confirming that the City cannot require production of the document.

**Rule 14. Native Village of Eyak Representation and Assistance.** The City Manager or Incident Commander shall request the appointment of at least one representative from the Native Village of Eyak to join the City of Cordova Unified Command. The City Council and the Native Village of Eyak Tribal Council may hold joint meeting(s) as needed or requested to discuss recommendations from the Unified Command regarding COVID-19 impacts on all residents and visitors to Cordova. The City Manager shall have authority to enter into agreements with the Native Village of Eyak to ensure the sharing of resources, knowledge, and information. These agreements shall become effective upon execution by both parties.

**Rules 15. Facial Coverings.** Except as otherwise provided in this rule, all individuals in Cordova must wear a mask, bandanna, or other type of cloth protective covering over their nose and mouth when social distancing of at least six feet from another individual is not possible. Individuals under the age of four, individuals with trouble breathing, and individuals with a medical condition that prevents them from wearing a facial covering are exempt from this rule. Facial coverings need not be worn in the following circumstances:

1. An individual is alone or within six feet of only members of his or her household.
2. An individual is eating or drinking in compliance with State of Alaska public health mandates;  
or
3. An individual is receiving lawful services that cannot be adequately performed while the service provider or the recipient is wearing a mask.

**Rule 16. Public Health Mandate Compliance.** All individuals and entities shall comply with all COVID-19 State of Alaska public health mandates. In the event the City Manager issues a “Local Outbreak Warning,” all individuals entering the City must comply with the City’s “Community Outbreak Rules” while the “Level 4” remains in effect. While in effect, the City’s Community Outbreak Rules preempt any other less-restrictive local or state rules regarding social distancing or business operations.

**Rules 17-19. Reserved for the adoption of future rules.**

**Rule 20. Penalties.** Any violation of these rules shall constitute a violation of a Cordova emergency mandate and may be punishable by a fine of up to \$500. Each day of a violation of these rules constitutes a separate and distinct violation subject to a fine of up to \$500. The City also reserves the right to enforce the State of Alaska Health Mandates to the fullest extent permitted by law.

## CITY OF CORDOVA COMMUNITY OUTBREAK RULES

These Community Outbreak Rules were adopted by Cordova City Council via Emergency Ordinance #\_\_\_\_\_ on Date \_\_\_\_\_. These Rules **only** go into effect when the City Manager declares a “Local Health Alert” in Cordova in compliance with the City’s COVID-19 Health Advisory Plan. During all other recovery phases, the City’s Emergency COVID-19 Rules and the State of Alaska Health Advisories apply. To the extent State of Alaska health advisories are in effect that impose stricter restrictions or requirements, all those advisories shall apply.

**Rule O-1. Reversion to State of Alaska Health Advisories.** All individuals entering the City and all private facilities operating within the City must comply with State of Alaska Health Advisory 1 Recommendations for Keeping Alaskan Safe, State of Alaska Health Advisory 2 International and Interstate Travel, State of Alaska Health Advisory 3 Intrastate Travel and attached to these Rules. Except as otherwise required in these Community Outbreak Rules, facilities and individuals shall continue to comply with all other State of Alaska Health Advisories.

**Rule O-2. Medical Quarantine.** Individuals under a healthcare quarantine order or an individual testing positive for COVID-19 must:

1. Stay in his or her place of residence or lodging for the period of time specified in the quarantine order or for a minimum of 10 days from the date of a positive COVID-19 test if no quarantine order has been issued; and
2. Notify a healthcare provider that the individual is under medical quarantine or has tested positive for COVID-19 before making any physical contact with that healthcare provider or entering the provider’s premises.

An individual subject to this Rule may NOT leave his or her residence to attend work, obtain supplies, engage in physical exercise or any activity except as permitted by State of Alaska health mandate or permitted within the medical quarantine order issued to that individual. The City shall not physically force individuals into quarantine under this Rule but the City shall fine individuals to the maximum extent permitted by law for violations of this Rule and may obtain a court order enforcing the quarantine order against the individual. Each individual exit from quarantine constitutes a separate and distinct violation of this Rule.
